

Flutter Denver

Monthly Event 02/04

04 February 2020 / 6:00 PM / Code-Talent

Co-ordinators

Michael Jordan, Rona Kilmer, Bert Beckmann

Presenter

Jonah Walker - Flutter State Management

AGENDA

Welcome

1. Welcome attendees to the February Flutter Denver Meetup event.
2. Thank Code-Talent for the use of their facilities and providing beverages.
3. Thank Reddiyo and Rona Kilmer for providing tonight's snacks.
 - a. Make a plea for food/snack sponsors for upcoming events. See Michael, Rona, or Bert for more information.
4. Go around the room and recognize returning members and welcome new attendees.
 - a. Have new attendees give a short introduction of themselves.

Review Key Points From Last Month's Event

- Give a quick review of the key points from the January 7th event.
 - What members would like to get out of participating in the Flutter Denver Meetup group in 2020:
 - Create An Active Community of Flutter Colleagues
 - Build A Network of Kindred Spirits Interested In Sharing Ideas and Experiences Working with Flutter

- Workshops that Allow Both Experienced and New Flutter Users to Learn and Build Together
- Presentations of Flutter Related Concepts and Technology
- Combine Workshops with Presentations to Help Build Skills

Status Updates

- Slack channel for Flutter Denver – Rona Kilmer and/or Scott Derhak
- Recording and streaming Flutter Denver events – Bert Beckmann
- GitHub repository for Flutter Denver – Michael Jordan
 - Using GitHub to host Flutter Denver website

Keynote Presentation

- Flutter State Management – Jonah Walker
 - Synopsis:
 - Creating an application from scratch using Flutter for iOS, Android, and Web with Firebase.
 - The app follows Reso Coder's diagram for Clean Architecture (no tests though for the sake of time)
 - Using get_it and provider for state management

Show-n-Tell

- Open the floor to members to share ideas, news, or learned concepts

March 3rd Meetup Event

- Create a Tentative Agenda
- Identify Action Items
- Identify Roles and Responsibilities

NOTES

Notes from the event:

- Bert Beckmann's video streaming experiment had mixed results. He was able to successfully video stream the event but experienced some difficulties.
- Jonah Walker gave an interesting presentation that included a new Flutter app that mirrored the content displayed on his computer. The app

is Peacock and Quill and is available on both the Apple App Store and Google Play Store.

ACTION ITEMS

1. Michael Jordan will give a presentation with a workshop on Flutter PWA for the March event.

MARCH MEETUP EVENT AGENDA

Agenda for March 3, 2020 Flutter Denver Meetup

- Welcome
- Show-n-Tell
